

Annual Report

2021-2022

Introduction

Association for Social Justice and Research (ASoJ) is a National level registered society, formed by likeminded Activists and intellectuals. The Organization is being operated with the active support of volunteers and governing body members. The Governing body provides active support during planning and implementation of organizational activities. The Society has been exempted from Income Tax under the Income Tax Act 1976.

Vision-Mission

Formation of an equitable society where children, women, and other marginalized people can live with self-esteem and dignity. Empowerment of marginalized communities through education, awareness generation and capacity building.

Goals and Objectiv

- Restoration of education health and protection rights for children.
- Strong grassroots advocacy intervention for restoring the right to gender equality, enable women to be self-reliant and enjoy a healthy, dignified and sustainable quality of life.
- Gender Perspective building and attitudinal change of society through Constant dialogue, communication and dissemination of information.
- Empower children and women to organize themselves to articulate the inequality.
- Empowerment of marginalized through linking them to the education system.
- Effort towards making the system accessible for marginalized through developing leadership and creating awareness.

Activity Report

Mahila Panchayat Programme

Mahila Panchayat Programme supported by Delhi Commission for Women was initiated from August 2013 at Gajipur Dairy farm area. Presently we cover the whole area coming under Gajipur police station with the following **objectives**:

- To stop violence against women through awareness and action by changing values and attitudes in our society.
- Capacity building of grassroots women through creating legal awareness and gender sensitization in society.
- To provide a forum for conflict resolution and resolve family disputes. Help the women to get the legal aid when necessary.
- Create awareness and implementation of social security schemes like PDS, Widow and old age pension and identity cards like voter identity cards, ADHAAR cards .
- Follow up and process documentation of all the cases.

The Mahila Panchayat Programme being run with the support of Delhi Commission for Women(DCW) assumes great relevance as an alternate justice delivery system for women. Innovative and unique in many ways this programme ensures cost-effective, hassle-free and speedy delivery of justice, almost at the doorstep of women in distress.

Mahila Panchayat is a collective strength of selected community women in leading roles, to resolve the problems of domestic violence in their area. This Panchayat takes up the cases of domestic violence and local disputes, resolves these problems through hearings and counselling and assists in reducing violence in that locality. The programme has been successfully solving cases involving women in distress and making them aware of their rights provided within the Law.

Achievements of Mahila Panchayat Programme

Within this one year (2021-22) 173 cases of domestic violence were reported and 127 among these were resolved through counselling in Mahila panchayat meetings. 26 nukkad meetings with 940 participants were conducted to create awareness in the community. Total 257 people were facilitated to avail widow, old age and handicapped pensions, Adhaar card, Voter ID Card and ration cards. 302 people were helped to get ADHAAR cards and 24 people got PAN card . These cases once resolved either in Mahila Panchayat or through courts are regularly followed up by paralegal volunteers.

Mahila Panchayat Meeting

Total 32 Mahila Panchayat meetings were organized throughout the year to create awareness in the community. Both men and women were sensitized about the gender discrimination prevailed in society and women were empowered through disseminating legal information. They were also informed about women rights which they get from law and the procedure of free legal aid. These women were facilitated to legal actions whenever required.

Cry Project

With the support of CRY –Child Rights and You we are working in Gazipur and Gharauli area from 2020-21. We are working on the issue of Child Rights with a special focus on Education and the protection of Children.

BLD was conducted with total 1168 households, including 528 households of Gajipur dairy farm and 640 households of Gharoli cluster. Gajipur dairy farm and Gharoli is located in the Kondali constituency of East Delhi district, and the MLA of the constituency is Kuldeep Kumar. Gajipur dairy farm is located in the Dallupura ward and Gharoli is located in the Gharoli ward. The Councillor of Kondali is Mr Rajiv and that of Gharoli is Ms Jugnoo. Following are our Target areas :

I. Gajipur Dairy farm:

This slum in East Delhi district is located on the periphery of the Gajipur landfill, around a kilometre away from the site. The total population of the area is 2251. 90 percent of these families have migrated from West Bengal and the rest from Bihar and UP. Most of the children (61 percent) of the area are engaged in rag picking with their parents.

Gajipur dairy farm comprises the Gajipur jhuggi cluster, the waste picker's community and gajipur dairy farm area, where the main occupation of the households is dairy farming and related work, comprising 53 perc. The total population of the 528 surveyed households of Gajipur dairy farm is 2251 ent male and 47 per cent female populations. The total number of children is 1055 which is

equal to 47 % of total population of the area. Male female ratio is the same in both children and adult populations,

II. Gharoli Area

The Gharoli area comprises of Gharoli sapera basti, Gharoli jhuggi cluster, and Gharoli extension. This area is located on the other side of the landfill. Total households are 620 in this area and the total population is 3113 with 51% male and 49% female population. 46% of the total population are children,

Main problem in both area was a huge number of out-of-school children and other issues of child protection were also prevalent in this area. In 2021-22 covid was prevalent throughout the year, so our main activities were focused on providing support to communities and government machineries. Main activities of this year are as follows:

Distribution of Covid Related instruments: Distribution of Thermal scanner, Oximetre and masks was done with the support of CRY to Anganwadi Workers, ASHA workers and medical officers of Dispensary .

Lal Bhadur Shastri hospital was also provided with Masks ,Gloves and Sanitizers .

School Chalo Campaign

However, from our intense observation, it can be concluded that about 6per centnt of the children in our target communities are the potential dropout category.

It was seen that most of the children attending the schools are not in touch with either online or offline education support from schools. As they don't have andevicesce like smartphones or laptops in their homes. Whenever schools provide worksheets they get it, but due to a lack of parental support most of the time they are not able to solve these sheets.

Out of total 1227 children going to school 60 percent children are potential dropout. 1029 children are in 14-18 years age group. 489 girls in this age group are going to be affected negatively and a small number of this group is going to re attend the school.

97 school going girls are of 14-18 years of age group. Most of them has been fully engaged in their household chorus and sibling care. Though these girls miss their school going time but at least half of them will never see the school again, and get married till the school reopens. Their touch with education has been completely left.

To prevent the dropout of these potential dropout children “School Chalo campaign” was organized in both communities After reopening of school. All the children were motivated to go to school. First of all household contacts were done and 2 community meetings were organized with parents, both in Gajipur and Gharoli. The meetings were organized on 16 February in Gharoli with 25 participants and in Gajipur on 17 February with 16 participants

School Enrollment: School enrolment campaign was carried out in Gajipur and Gharoli cluster after preparing the list of out of school children. Children and parents were motivated to register their children in school. In summer vacation we did the mapping of out of school children in **Gajipur jhuggi** cluster and prepared the parents to send the children school. 24 children from this community were registered in EDMC Pratibha school. These children were in the age group of 6-10 years and registered in their age appropriate classes. Most of these children were being denied of admission due

to not availability of ADHAAR Card. We convinced the admission in charge about the Norms of RTE Act 2009 . Further she agreed to register the children on the basis of the ADHAAR card of parents. We also helped some children to register in ADHAAR by linking them with post office. The admission of 24 children was done in different phases, as all the parents were not available in one day.

Non plan admission: 7 children from Gajipur community were above 10 years, and already passed from primary school, were denied admission in Sarvodaya co ed senior secondary school IP Extension in previous years and they are out of school. We advocated with the school principal and convinced him. With continuous follow-ups they got admission in school.

School Enrollment in Gharoli Jhuggi Cluster In Gharoli jhuggi cluster 22 children were being denied admission , 19 out of them were denied due to non availability of ADHAAR card. We had to convince the principal about the procedure of RTE Act 2009, ultimately they became ready to register them with the ADHAAR of parents and children who were enrolled in school.

Total 77 out of school children were enrolled in school this year .

Linking all eligible children with health and ICDS : For linking all children with ICDS services we are reating awareness among the community and alos collecting data from household survey.

This data revels that 611 children out of total 875, are registered in all the centres from our target area and getting all the icds services ie growth monitoring, Immunization and Nutrition. Preschool classes which were stopped from last 2 years, are going to start in near future.

Awareness on Covid Protocol: To maintain covid protocol we remain present in the day of nutrition distribution in centre and help them to maintain social distancing and follow other safety measures. Time to time anganwadi visit is being done to monitor whether they are following the norms of social distancing and sanitation during the distribution of nutrition to children and women. Regular counselling of Mothers was done to take the small children to a dispensary in their area and get them vaccinated. Regular follow-ups were done with ASHA,s of the area . Database of immunization is also being prepared to do further advocacy.

School visits were done after the reopening of school to make observations on following covid protocols. Visits were made in RSKV Patparganj and RSKV Kondali.

Also we met with the principals of EDMC Pratiba school DDA Flats Gajipur and EDMC School Harijan Basti Ghaoli.

Sanitary Napkin Distribution: Because of the Covid pandemic all the school and ICDS Centres were closed, so the girls were not getting sanitary pads. With support of CRY we got 3000 packets of sanitary pads, which we distributed to the adolescents girls and women of community. This was very helpful for them. Because the work of parents was also left in this time and no body was earning in their families. It was not possible for the girls to buy napkins in such times.

Vaccination awareness campaign: was carried out in the area through household contacts, nukkad meetings, community meetings and nukkad plays. Awareness was also created with the help of posters and pamphlets. Total reach of the awareness programme was up to 10000 population. Through the impact of these campaigns only 90 percent adult population of our target area could be vaccinated. **Puppet show** on vaccine awareness was conducted with the involvement of children to create awareness among community.

CAC children prepared skit on hand wash procedure. This skit was conducted for creating awareness in community.

Vaccination of Adolescents was initiated from March 22. For children vaccination we created community awareness through one to one contacts and also nukkad plays with the help of Mahak team. 2 Children vaccination camps were organized 1 in Gajipur and another one in Gharoli extension.

Vaccination Camps: 2 vaccination camps were organized in the month of December in Gharauli area with support of CRY and Dispensary of Delhi Government. Total 250 adults were vaccinated in these camps, mainly from muslim community who were denying for vaccination. Door to door awareness was done and nukkad plays were organized before hand. Some elderly people were helped to reach the camp venue and helped back to their homes.

CAC Operation: October onwards offline classes of CAC were initiated with 183 children registered in both the areas. After completing formal registration, evaluation of children was done to identify their levels and all the children were divided in 4 levels ie 1,2,3 and 4 . We had initiate conducting level wise classes. In between 2 terminal tests were conducted in the month of September and December respectively. Enrolment in CAC is 87 in Gazipur comprising of 39 Male and 47 Female. In Gharoli 96 children have been registered in CAC. 34 among them are Male and 62 Female. In the month of January once again we had to distribute worksheets to cac children due to increased incidence of covid. From February onwards physical classes were conducted in both CACs. In the month of march final examination were conducted for all the children. In Gajipur 82 out of total 87 children (M 42, F45) attempted the examination.

Awareness on Lactating and Pregnant women

Groups of Lactating and Pregnant women have been formed in both the communities and one to one counselling is being done on the issue of infant and child feeding practice.

Women groups were made aware about maternal nutrition and covid awareness through various community meetings. Whole community is being aware about the hygiene practices during the pandemic.

Meeting of lactating mothers was done on 23 March in Gajipur with 7 women. In Gharoli meeting with 15 lactating mothers and pregnant women was done jointly on 31 march. Pregnant women were motivated to register them in hospital for safe deliveries. Also these groups were made aware about covid related hygiene practices. Nigrani groups formed in both communities have also been oriented about covid symptoms, so that they can inform us about any emergency situation in community.

Capacity building sessions on WASH protocols

Meetings in WASH protocol was conducted with Anganwadi workers, ASHA Workers, SMC members and Nigrani samooah ladies on 30th December in Gharoli and 29th December in Gajipur. All these stakeholders were made aware about the WASH Protocol and mobilized to follow these guidelines in each and every interaction with community and children.

Besides this 3 community meetings were also organized in both areas on wash protocol.

Anti Child labour and Child marriage Campaign

Due to COVID and school closer large number of children from our community has been become child labour. Some children who were working part time after school hours has been converted in to full time child labour due to no work for parents. We are making a data base.

for such children. Total 72 children have been identified from both the area and their case study has been prepared. We are working to connect them with education again, through our CAC and school admission. Out of total 72 children in labour, 29 have been already enrolled in school and 4 new children are ready and will be facilitated to be enrolled. 22 children out of the 77 children, are attending CAC.

Nukkad play was conducted on the issue of child marriage in both the communities.

Generate impactful messaging related to COVID-19 and disseminate among: Communities, Covid related **Posters and painting activities** were performed in CAC and children and adolescent groups. Slogans were made by children

Meetings with the Nigrani group members and community leaders was conducted in Gajipur on 14 March and at Gharoli on 30th march. In both the meetings discussion was made on the interconnection of Child labour and child marriage particularly among girls. As soon as the child drops out from school and engages in labour, becomes more prone to child marriage.

CAC children performed play based on child labour in Gharoli cluster and Sapera Basti. 90 people from community were present in this performance.

In Gharoli 92 out of 96 enrolled children (M 34, F 62) attempted final examination. Grading has been completed in both canters.

We conducted Meeting with parents in both communities. Children were facilitated to collect worksheets from school.

All the 77 children who got admission in school were facilitated to get books from school. All the children attending our CAC got books from their schools.

Out of school children data was received from BLD and further tracking of each and every children in or out of school is being done.

Total 77 children have been enrolled in schools from both the communities.

List of the children is being prepared for school admission in the month of April.

Anganwadi Demand /Advocacy Based on this data on 14th March, demand letters for opening of anganwadi in Gajipur and Gharoli has been sent to Deputy director ICDS, Department of WCD.

We came to know that there is no Anganwadi centre in Gharoli jhuggi cluster where 200 families engaged in waste picking reside. Awareness meetings were conducted with the people in community and two demand letters were submitted to assistant director ICDS at Women and Child Development Department 1 Canning lane with signatures and representatives from community:

1. Demand letter for establishment of Anganwadi centre at Gharoli jhuggi cluster with signature from community and list of children <6 years.

2. Demand letter for establishment of more anganwadi centres in Gajipur dairyfarm jhuggi with list of children <6 years .

We also filed an RTI regarding the demand of Anganwadi centre in Gharoli cluster. Consequently pressure is being built to shift Anganwadi no 33 in Mulla coloney to this area. The worker of that centre is also trying to accommodate the children of Gharoli cluster in the Anganwadi in Mulla colony. Survey of the children <6 years has been carried out in the area. The reply of RTI was received on 15th july from CDPO Trilokpuri project. However after receiving our demand letter for Anganwadi centre most of the children <6 years have been inducted in neighbourhood Anganwadi number 22 in gali no 8 of Mulla colony.

We filed a complaint on 23rd April at office of CDPO Trilokpuri regarding the appointment of teacher for the only anganwadi at Gajipur jhuggi .As a result appointment of teacher Ms Manju has been done from the month of June. Also we are advocating for the establishment of a new anganwadi centre in Gajipur Jhuggi because all the small children are not being accommodated in 1 centre.

Nukkad meetings are being conducted with parents on the issue of girl Child Education. Issue of Education particularly education og girls is being discussed in each meeting with women /parents. Total 8 meetings with 124 participants were conducted in Gharoli and 10 meetings with 125 participants were conducted in Gajipur.

Children groups/ adolescent group meetings: 4 children groups have been formed with 62 children of 8-12 years. Total 17 meetings were conducted with these groups in Gajipur with 238 participants. In Gharoli total 17 meetings with children group were conducted with 262 participants. **Issues of the meeting** were prevention from Child sexual abuse, Child rights and stress management, Covid protocol, Gender discrimination.

Over all total 34 meetings with children group were conducted with 500 children in our target area.

4 **Adolescents groups** have been formed with the age group of 13-18 years children, 2 among them are girls groups and 2 are common group.

Total 14 meetings have been conducted with these groups in **Gajipur** with 184 participants. In Gharoli total 10 adolescent meeting with 136 participants were conducted. **The issues of meetings** Child sexual abuse, Child rights, stress management, mental health, menstruation hygiene Child marriage and self-protection. Importance of education, and power of collectives .92 adolescents participated in these meetings.

Active participation in our meetings and other activities of these

Adolescent group members mainly girls is really an achievement. Most of these girls were not allowed to come in our centre in early days, now they have started expressing their view on various issues.

Craft activity, thumb painting, best from waste material, expression through mukhotas, Expression through finger puppets, puppet shows, poster making activity and mental health activities are some of the highlights of group activities.

Facilitation to collect worksheets

After reopening the school we conducted Meeting with parents in both communities Children were facilitated to collect worksheets from school. 64 children who were not getting any kind of work from their schools, were facilitated to get their work from school. We conducted Meeting with parents in both communities and ask them to send their children school on the fixed day. Meetings were also conducted with respective principals in this matter.

All the 77 children who got admission in school were facilitated to get books from school. All the children attending our CAC got books from their schools.

Tracking of Out of School Children: Out of school children data was received from BLD and further tracking of each and every children in or out of school is being done. Potential dropout children were identified.

Most of the school going children from our area were not in touch with either online or offline education support from schools. As they don't have any device like smart phones or laptops in their homes. Out of total 1227 children going to school 60 percent children were identified as potential dropout. 1029 children including 489 girls were in 14-18 years age group. These girls remained fully engaged in their household chorus and sibling care. Back to school campaign was organized to send these children school again.

Bttack to School Campaign: Families with potential child labours were identified with intense observation during field visits. After reopening of school “**School Chalo campaign**” was organized in both communities to prevent the school dropout of the children: After reopening the school all the children were motivated to go to school. First of all household contacts were done and 2 community meetings were organized with parents, both in Gajipur and Gharoli. The meetings were organized on 16 February in Gharoli with 25 participants and in Gajipur on 17 February with 16 participants. Rallies in community were also organized with small number of children with social distance. Each and every child is being followed up for going school. The children already engaged in child labour were our main focus. Poster making activity was also conducted with the children on this campaign. Awareness generation is being created in community about child labour through nukkad meetins, nukkad plays. One meeting in each community was conducted with the community leaders and vigilance group members and parents of the children involved in child labours, on the issue of child labours.

School visits were done after reopening of school to ensure that government schools are adhering to government norms of COVID protection for children after schools reopen. Visits were made in RSKV Patparganj ,RSKV Kondali ,EDMC Pratiba school, DDA Flats Gajipur and EDMC School Harijan Basti Ghaoli of our Target area.

Meetings in WASH protocol was conducted with Anganwadi workers, ASHA Workers, SMC members and Nigrani samooah ladies in Gharoli and Gajipur. All these stakeholders were made aware about the WASH Protocol and mobilized to follow these guidelines in each and every interaction with community and children. Besides this 3 community meetings were also organized in both areas on wash protocol.

Tracking of Child Laborer: Due to COVID and school closer large number of children from our community has been become child labour. Some children who were working part time after school hours has been converted in to full time child labour due to no work for parents. We are

making a data base for such children. Total 72 children have been identified from both the area and their case study has been prepared. We are working to connect them with education again, through our CAC and school admission. Out of total 72 children in labour, 33 have been already enrolled in school, 22 children have been brought back to education through our CAC Classes.

Affiliation with Other Networks: We are connected with other networks working for child rights like Alliance for People right, Nine is mine and Neenv Delhi Forces.

Community Awareness: Due to Pandemic incidents of child marriage and cases of child labour were increasing in our community. Awareness was created through various mediums like Nukkad play community meetings and puppet show.

Nukkad Natak: 2 Nuttak Plays on the issue of Child Marriage and Child Child labour were conducted in Gharoli in the month of November 2021 with 130 participants. Community participants were motivated to send their girls to school through this play. 2 plays in child marriage and girls education were conducted in Gajipur with 150 participants.

Nukkad meetings: Nukkad meetings were conducted with parents on the issue of girl Child Education. Issue of Education particularly education of girls is being discussed in

each meeting with women parents. Total 8 meetings with 124 participants were conducted in Gharoli and 10 meetings with 125 participants were conducted in Gajipur.

Vaccination awareness campaign was carried out in the area through household contacts, nukkad meetings, community meetings and nukkad plays. Awareness was also created with the help of posters and pamphlets. Total reach of the awareness programme was up to 10000 population. Through the impact of these campaigns 90 percent adult population of our target area could be vaccinated. CAC children prepared skit on hand wash procedure. This skit was conducted for creating awareness in community.

This target could be achieved with the help of **vaccination camps** organized with the help of health centres councillor of the area.

Total 4 plays on child labour and child marriage were performed by CAC Children .total 220 participants from community were mobilized through these plays. Poster making activity were also done by cac children.

CHILDREN, ADOLESCENT AND WOMEN GROUP ACTIVITIES

4 **children groups** have been formed with 62 children of 8-12 years. Total 17 meetings were conducted with these groups in Gajipur with 238 participants. In Gharoli total 17 meetings with children group were conducted with 262 participants. **Issues of the meeting** were prevention from Child sexual abuse, Child rights and stress management, Covid protocol, Gender discrimination. Over all total 34 meetings with children group were conducted with 500 children in our target area.

4 **Adolescents groups** have been formed with the age group of 13-18 years children, 2 among them are girls groups and 2 are common group. Total 14 meetings have been conducted with these groups in **Gajipur** with 184 participants. In Gharoli total 10 adolescent meeting with 136 participants were conducted. **The issues of meetings** Child sexual abuse, Child rights, stress management, mental health, menstruation hygiene Child marriage and self-protection. Importance of education, and power of collectives .92 adolescents participated in these meetings. Most of these girls were not allowed to come in our centre in early days, now they have started expressing their view on various issues.

Adolescent Group meetings

Group Activities

Craft activity, thumb painting, Expression through Emoji best from waste material, expression through mukhotas , Expression through finger puppets, puppet shows, poster making activity and mental health activities are some of the highlights of group activities.

Children Group Activities

Life skill workshop was conducted with children group with 15 children on 16 March. Workshop on stress management was conducted in Gajipur with 27 children and 22 adolescent in the month of March.

Formation of Nigrani Samooh: Nigrani samooh is being formed in our target areas with the parents of children. First of all awareness about child sexual abuse and child trafficking was created among community through small nukkad meetings and one to one interaction. They were informed how the community vigilance can prohibit most of the cases of crimes with children. After that some of the women volunteered them to become members of Nigrani samooh.

Meetings of Nigrani Samooh

Advocacy for Anganwadi centre:

There is only one icds centre in Gajipur for 329 children of < 6years and no icds centre was available for 133 children of <6 years in Gharoli jhuggi area. Demand letters for opening new anganwadi centre in Gajipur and Gharoli were sent to the CDPO of Kondali and Trilokpuri projects with the signatures of parents and list of small children enclosed. After receiving our demand letter 123 new children have been added in all four centres of our target area. As a result total 611 out of total 875 children are getting all the icds services ie growth monitoring, Immunization and Nutrition.

Nukkad meetings for Anganwadi
